

- DECLARATION OF CONFORMITY -

The model of this Declaration conforms to the provisions of the UNI CEI EN ISO / IEC 17050-1 standard
The Company: HIDRONIX s.r.l.

with headquarters and plant: Via Cimminola area ind.le pip snc - 80031 BRUSCIANO (NA)
Fiscal Code and Part I.V.A. : 05695991215

declare under its own responsibility that the pipes produced by it called "MULTIGAS" comply with the functional requirements required by the following standard concerning multilayer gas piping systems:

UNI / TS 11344 "Multilayer metal-plastic piping systems and fittings for the transport of gaseous fuels for internal systems", in relation to the following paragraphs:

par. 4 tubes

par. 7 System features

par. 7.1 Reaction to fire

par. 8.1 Marking of the tube

par. 9 Documentation

Appendix A, B, C, D.

The standard UNI / TS 11343 "Gas installations for domestic use - Gas supply systems for domestic use powered by distribution network, from LPG tanks and fixed tanks, made with multilayer metal-plastic piping systems - Design, installation and maintenance "

requires points:

3.28 Multilayer pipe system

"A set of products listed by the manufacturer, which includes fittings, pipes, tools, tools and everything necessary to provide for the assembly and installation of the same."

4.3.2.2 Fittings for multilayer systems

"The joints of the multilayer pipes can be made using fittings for multilayer systems in compliance with UNI / TS 11344. The joining process, materials, equipment and tools used must be those defined by the manufacturer of the multilayer pipe system, with indications and the procedures set out in the instruction and warning manual, specifically provided with the equipment. "

The UNI / TS 11344 standard mentioned above provides, in this regard:

9. Documentation

"When requested, the manufacturer must provide the certificate of conformity of the system with this standard. The manufacturer must make available the instructions for the correct installation and maintenance of his system. "

This declaration is valid only for multi-layer gas pipes of our production and not for the complete system. The system declaration must be issued by the "Manufacturer" of the system (Pipes, Fittings and Valves).
